

IEEE YESIST12 JUNIOR EINSTEIN TRACK 2026

Grand Finale Pitching & Evaluation Schedule

02–03 October 2026 | Jakarta, Indonesia

General Instructions

1. Each team will be allotted a fixed evaluation slot as specified in the schedule.
2. Teams should use their allotted presentation time to clearly present their project, focusing on the problem identified, target users/customers, proposed solution, innovation, technical implementation, impact, scalability, and future scope.
3. Teams should demonstrate a clear understanding of the target market or customer needs and explain how their solution addresses the identified problem.
4. Teams are encouraged to include a working prototype video, product demonstration, model, simulation, or other relevant evidence of implementation wherever applicable.
5. Teams should ensure that all presentation and demonstration materials are prepared and readily accessible before their allotted slot.
6. Online teams must ensure a stable internet connection and functional microphone, camera, and screen-sharing facilities. All demonstration materials should be tested in advance.
7. Offline teams must ensure that all required prototype videos, hardware, laptops, power adapters, cables, and other demonstration equipment are prepared and operational before entering the evaluation area.
8. Any video or digital demonstration material intended for presentation should be preloaded and tested in advance and must be completed within the allotted presentation time.
9. Teams may distribute presentation responsibilities among their members; however, the presentation must remain within the allotted time.
10. Teams are expected to maintain professional conduct and punctuality, follow the instructions of the evaluation panel, and avoid interruptions while another team is presenting.
